SUPPLEMENT TO
REPORT NO.

25X1X

1. Work on the draining of Lake Skadar is being done only on the periphery, at Virpazar, at the Crnojevic River, at the point where the Zeta River empties into Lake Skadar, and at Plavnica.
2. All demolished bridges over the rivers Moraca, Ribnica, Zeta, and in the Tara Valley as far as the village of Majkovci, as well as from Matisevo toward Andrijeveci and Berani, have been reconstructed so that the traffic in these areas has been able to resume its normal volume.
